

HEATCUBE

HEATCUBE stands for smart decisions:
Quality that counts – and prices that convince.

Convert your existing open fireplace into an efficient, powerful and environmentally friendly heat source – quickly, easily and without major conversion work.

- Installation in just one day
- Simple, elegant Rüegg design with a large fire view
- High-quality Thermobrikk® firebox for maximum heat storage
- Standard sizes for flexible retrofitting
- Optional whisper fan for optimised heat distribution

HEATCUBE: the efficient, cost-effective, and stylish solution for transforming existing open fireplaces into powerful heat sources. Available in 3 sizes.
